CHICAGO MARKETS.

Opinions as to the Future More Badly Mixed Than Usual.

Special to the Sentines.

CHICAGO, March 21 .- It has not been a week of heavy business in the speculative markets on 'Change, though values have fluctuated actively within a fair range. The sudden stoppage of all war news and consequent lack of excitemont on that score seemed to take away all outside interest in the grain markets. The boys, too, distiked to come down from talk of big conflicts and blood spilling to simple weather influences, and these seemed to be all that were left to figure on. Hence the opening was characterized by a gradual settling back of prices, caused more by neglect than any thing else. Later, however, when the visible supply increase was found to be considerably below what had been estimated, many "shorts" took a cover and there was an easy rally, though when the immense stock now in sight and the rearness of the new crop are considered, it is hard to see what possible difference a few thousand bushels one way or the other could make. Since then there has been no decided change in quotations, the advance or decline of each day being generally wholly or nearly wiped out by the close of the session, and the values now are

very near the figures current a week ago. In regard to the future opinions are even more badly mixed than usual. The bulls place a good deal of dependence on crop scares, but damage task is certainly not having its customary influence, as uncontradicted reports of the most un-favorable character are being constantly received from all parts of the country, and yet the market responds but slightly. Operators see 2 to think that even if this should be a short crop there will be grain enough left over to supply needs, especially as there seems no prospect of the usual brisk spring demand. Prices are low, but low prices do not stimulate demand, and the load is a heavy one to push uphili without it. Nothing but a considerable revival of speculation, with some strong local parties as leaders, can move

Corn started out quiet as ever, but Tuesday's large and unexpected increase in the visible supply, as compiled by Secretary Stone, caused a sharp break. Receipts had been light and the cash demand good, so that it seemed impossible that such large quantities could have gone into store. Hence, when it was reported that something over a million and a half bushels which, being on the road to consuming points did not being on the road to consumi g points, did not belong in the statement, had been included, tho buils took courage. Thus there has been a grad-ual return of confidence, and prices have slowly crept back to the starting point. Wallace has been the most prominent buyer of futures, but there has been heavy purchases of case stuff for shipment right along.

Hay products dragged along during the early part of the week and seemed to invite "short" sales. The crowd, however, believed this was simply a ruse of the packers to get out sufficient lines to make a squeeze profitable, determined not to be caught. So they bought, and as usual got on the wrong side. The crowd in the provision pit always do. Toward the close of the week Linn, Rouse, Jack Cudaby and Jones made a raid on pora, and instead of giving support the packers used every effort to depress it. All the little fry were shaken out, and the flood of small parcels held on shoe string margins carried the market to a considerably lower leve'. Now the gossips again have it that this is surely the last "shake out" before a good bulge, and many are edging back on the "long" side.

Defeat of the Bill to Abolish the Free Pass System in Coprecticut.

HARTFORD, March 21 .- An adverse report was made in the House to-day on the bill prohibiting railway companies from issuing free passes to State officials, members of the Legislature or other persons, excepting officers and employes of the

Mr. Carter (Democrat) expressed his regret at the action of the committee. Since the Pigott affair, the subject of free passes had attracted the general attention of the public, and very many persons, whose opinion was entitled to consideration, believed that members were influenced, directly or indirectly, on matters relating to rail-road legislation by accepting free passes. As such a feeling does exist, it would be wise to abolish

Mr. Frisbie (Rep.) said that whether right or wrong the public have the opinion that the pass system was wrong. He had been criticised by one of his constituents on a vote on a railroad question, and the gentleman who was offended had remarked that it was impossible for citizens of the State to be dealt with fairly when the issue is with railroads, as all the members hold free passes. Mr. Frisbie did not use passes but he knew of an instance where the President of a railroad had rebuked a memper for the action he took, and finally withdrew his pass.

Mr. Crouch (Rep.) moved that the report be tabled, which was done, as was also a bill, adversely reported, requiring all railway companies to issue passes to all State officers and members of the Legislature.

JUDGE DAVIS.

He is of the Opinion That Neither Logan Nor Morrison Can Be Elected.

BLOOMINGTON, Ill., March 21 .- Your correspondent this morning met ex- Vice President David Davis, who was leisurely strolling along the street putting his cigar. The Illinois Senatorial problem was evidently a subject which was absorbing the Judge's mind as he promptly asked: "What's the news from Springfield?" When told there was no solution as yet of the Senatorial fight, and that both Morrison and Logan stood no better show of being elected Senator than they did weeks ago the Judge gave way and freely expressed his opinion Judge gave way and freely expressed his opinion by declaring in the most emphatic manner that neither Morrison nor Logan would or could be

"It was all foolishness." he said, "to assert that they had not received all the strength which they could possibly command." He thought if a com-promise caudidate was not soon brought out the egislature would adjourn and go home without making an election. Judge Davis, who defeated Logan six years ago, is anxious to see the latter secceed himself, but evidently thinks the game is up so far as the present Legislature is concerned.

A Father's Search for His Son.

SYRACUSE, N. Y., March 21 .- Alexander Giroux, a shoemaker, who has lived in Fulton and vicinity for twenty five years, is of French-Canadian origin and has always borne a good reputation. For several weeks, there having been a rumor that his son, who was reported to have been lost last fall, might have been murdered, District Attorney Mead, of Oswego County, has been investigating the case. What may have given color to this theory was the sudden sale of Giroux's house and lot in Lower Oswego Falls, and, as reported, his departure to Canada. It was also said that he had, during last y'ar, caused a small insurance to be taken on the life of his son. Mr. Giroux says that he has at last succeeded in finding his lost boy. His method was to visit a town, get the rolls of the district schools, and see if his son's name might be found. After visiting nearly all the villages in Madison and Oneida Counties he was rewarded a day or two since by finding the how who is living with Mr. Lawis at finding the boy, who is living with Mr. Lewis, at a place which the father freferred not to name. The boy was kidnaped, he says, by an Indian doctress, who came from Canada, and who broke into his boure and took what money he had at the time. This woman, he said, was to be arrested to-day and brought before a Justice on these charges. The insurance story came from the fact that an agent of a co-operative company induced the son to insure, but he never paid more than a few shillings. Giroux has never feared for the safety of his boy. The story that the child when last seen was going to the woods with him was not true. Giroux feels quite indignant that his old neighbors should give credence to the startling rumors which have been circulated.

Mackin and Gallagher.

CHICAGO March 21 .- In the United States Dis triet Court this morning, Emery A. Storrs, on behalf of his clients, Mackin and Gallagher, who were convicted and sentenced to the penitentiary in the Eighteenth Ward election fraud case, ad-

Amateur Athletics.

NEW YORK, March 21 .- At a special meeting of the National Association of Amateur Athletics tonight, it was decreed that an amateur is any person who has never competed in any open competition for money, or under a false name or with a professional for a prize, or where gate money is charged, nor has ever at any time taught, pur-sued or assisted at athletic exer-cises for money, or for any valuable consideration. But nothing in this definition shall be construed to prohibit competition between amateurs for medals, cups, or other prizes than money, and it is hereby expressly declared that the definition is not retroactive and that all past acts of the amateurs shall be judged in accordance with the provisions of the old definition, and that the foregoing definition shall take effect on and after May 1, 1885. June 13 is fixed for the championship games.

New Orieans Exposition.

NEW ORLEANS, March 21 .- A drenching rain, which set in last night and continued during the forenoon, marred that which was expected to be the grandest day of the exposition since the Mardi Gras festivities. Philadelphia day was postponed until Thursday next. Minnesota day, however, was celebrated to-day according to programme. Two thousand persons participated. Addresses were made by Colonel Samuel E. Adams, alternate of the United States Commission: Acting Commissioner Edward D. Porter, General James H. Baker, Mrs. Julia Ward Howe, Professor O. W. Tousley and Professor W. W. Pendergast. Oliver Gibbs, Jr., read an interesting paper on the history of the inception and development of Minnesota exhibits. The exercises concluded with a distri-

Not Fit to Rear Her Child

WHESLING, March 21 -- Ormond Brady, formerly a Baltimore and Ohio official of this city, but now owner of an elevator at Baltimore, to-day swore out a writ of habeas corpus for his daughter, Julia. aged about four years, who has been living with her mother here since December, 1883. Mr. Brady alleges that his wife is no a fit person to have charge of the child, and that though he has not seen her since 1883 she has a child one month old. When a Deputy Sheriff went to serve the writ Mrs. Brady, her mother and sister defied and kent blm at bay with revolvers and pokers until three policer en came to his assitance. Suit to Recover Money.

St. Louis, March 21.-Leslie M. Moffitt, receiver of the Harrison Wire Works Company, this city, brought suit to-day in the Circuit Court sgainst the ex-President of the company, Thomas W. ch, for the recovery of \$102,279, alleged to have been overdrawn by him while he had charge of the works, from 1878 to 1883. No criminality is charged, and the attorneys of the plaintiff state the suit purely civil, and simply to recover money drawn by Mr. Fitch, presumably with a knowledge of the Directors of the company. Mr. Fitch was formerly a Lietenant in the United States navy and is a son-in law of General Sherman. Severa other suits against prominent citizens, it is said, will follow this,

Loss by the burning of the machine works, \$250,000; insurance, \$120,000.

Cutting the Rates. CINCINNATI, March 21 .- The Fan Handle and

Bee Line Roads have been selling tickets to New York to-day for \$15, with a rebate of \$3 at New York. The N. Y., P. and O. sells for \$7 without rebate, and announces that it will sell lower than any other line so long as the agreement as to the difference of the length of its line is disregarded. Washington and Baltimore rates are kept nearly up to the standard.

Still Abusing Miss Van Zandt. PARIS, March 21 .- Several of the minor papers

of this city continue to abuse Miss Van Zaudt, the American prima donna. It endows the system with a degree of vigor, and reforms its irregularities with a certainty that constitutes its best defense against disorders of the stomach, dressed Judge Gresham, stating that it has come to his knowledge that there was a scheme on foot to rush Mackin and Gallagher to the Joliet Penitentiary on the noon train to day. Storrs appealed to Judge Gresham to step between his clients and the penitentiary. The Judge being powerless to stay the execution of the sentence imposed in the District Court, Judge Blodget was next appealed will be grateful for the hint.

A MARSHAL DISAPPEARS.

Another of Senator Mahone's Proteges in Trouble.

RICHMOND, Va., March 21.-There are some cu' rious rumors afloa to day concerning Major R. P. Hughes, United States Marshal for the Eastern District of Virginia, which indicate that he has disappeared, leaving his accounts in a muddled condition. Inquiries made elicited the information that Marshal Hughes was seen here Wednesday evening, the 11th inst., when he took the northern bound train for Washington. Since then he has not been heard from, though both letters and telegrams have been forwarded to him at that

Fit is known that a claim be had, amounting to \$1,650, for fees was disallowed by the Court, and the Marshat had been pressed for its payment. This had been reported to the Attorney General, who had issued an order requiring that the money should be returned to the department.

United States District Attorney Waddell stated that he had no information that he desired to make public regarding the missing Marshal. He said he had heard for the first time yesterday some such rumor as that stated, and that he promptly communicated all the information he was possessed of to the Attorney General at Washington. He declined to say anything further until he heard from the Attorney General or until he knew something more definite on the

subject.

Marshal Hughes was appointed by President
Arthur, at the instance of Senator Mahone, some
three years ago, and has been quite a popular
officer. While of the same name he is no relative of District Judge Hughes. No one knows how his accounts stand with the department, but rumor says he is in arrears, the amount of which, however, his sureties are good for. Hughes is said to have tendered his resignation and gone

General Grant's Condition. NEW YORK, March 21.-General Grant went to sleep between 10:30 and 11 o'clock last night, and rested uneasily. He slept at intervals until after midnight, when he got up and walked about his room and library. When the General arose this morning he took some liquid food in his room. Colonel Fred Grant states that his father receives about twenty applications a day for autographs, and it is a physical impossibility for the invalid to comply with these requests. While the writing of one autograph would not require much exertion twenty would be a day's work for him, and it will be well for the public to know, said Colonel Grant, that such demands can not be met.

Coal Miners' Convention.

PITTSBURG, March 21 .- The Railroad Coal Miners' Convention here to-day was largely attended. The reports from the delegates were very encouraging to the convention. Of the thirty-seven plts along the railroad twenty-two were closed on account of the strike, ten were in operation at the price demanded by the miners, and five were working at the reduction. To-day ends the second week of the strike, and it seems no nearer a set-tlement than when it commenced. Ten thousand men are idle, and it is estimated that they have already lost in wages \$100,000. Coal is getting scarcer every day, and a number of manufac-turers will be compelled to close for want of fuel.
